

STB NEWSHEET LIME HANDLING

For 30 years STB have been the choice supplier to the major Lime Industries. Equipment includes: silos, conveying systems, receivers, weighing & feeding. STB provide complete systems including design, manufacture & installation.

Picture above and below: Lime silos and pneumatic conveying systems installed in Devon and Cornwall.

Silos are manufactured in painted mild steel, aluminium or stainless steel. Transfer systems can be mechanical screw conveyors or pneumatic conveyors including dense phase, medium phase and dilute phase.

Picture below: Silos being loaded onto wagons outside STB works.

Installation using our experienced engineers
